RECOMMENDATIONS

- Restock out-of-stock and critically low-stock products immediately to avoid lost sales.
- **Monitor high-revenue items closely** and maintain sufficient buffer stock.
- **Review discount strategy** for consistency and to ensure profitability.
- **Strengthen supply chain for high-demand categories** like Fruits & Vegetables.
- **Conduct regular inventory audits** to keep data accurate and up to date.

KEY TAKEAWAYS

- Inventory is healthy overall, with most products well-stocked.
- High-revenue items are clearly identified; focus should be on maintaining their availability.
- A few products show critical stock levels and need urgent restocking to avoid revenue loss.
- Strategic monitoring of discounts and supply chain can enhance profitability.
